

STUDENTS' WORK

Visit from Saar (JNF)

When Saar came to our school. He taught us a lot about JNF and Israel. The first day he came, we had a visit to Israel. He said that Israel is an amazing place. On the second day, we had to make a poster about Israel and convince him that you should come to Israel. On the third day, he played some games. First we played Charades. Then we had to make a map of Israel. Then we went outside and played some games. We also watched a DVD about Israel. I would love Saar to come again. HE IS THE BEST!!!

By Simon (Yr 3)

I think that it was great having Saar here because we learnt a lot about JNF. We learnt that JNF owns a little bit of land in Israel. I really liked making those maps of Israel. I also liked looking at the DVD with lots of pictures about Israel. We played lots of fun games and we did a competition. I hope Saar comes back lots of times because he is really cool. Saar was really fun to be with. *By Daniel (Yr 3)*

Last week, Saar from JNF came to Massada College to teach our school about JNF. On the first day, we saw a slideshow of Israel. He showed us parts of Israel like Jerusalem, Tel Aviv, Yaffa, Haifa, Acco, Ashkelon, Beer Sheva, the Dead Sea, The Negev, The Yarkon, The Yarden, Har Cheron, The Golan Heights, Tiberius, The Kinneret, Eilat, The Gulf of Eliat and lots of cities. And also on that day, we made posters. We had to make songs. My team's song goes like this:

*Israel is cool,
It's better than our school,
It has lots of knowledge,
More than Massada College,
Israel really rules,
You can swim in lots of
pools
ISRAEL RULES!!!*

Then the next day we played games and on the last day, we had a mini assembly because Saar was leaving. I hope Saar can come back this year or next year.

By Mendel (Yr 3)

When Saar came we got to draw things about Israel. We had to go in groups. My group was, me, Samantha, Scarlett, Daniel, Kira, Yogev. Our song was:

*Come to Israel,
Be our guest,
We chose you,
'Cause you're the best,
You are always welcome
here!!
By Avinash (Yr 2)*

When Saar came to our school from JNF, he taught us a lot of things about JNF. We know that JNF plant trees all around Israel. We made a poster to make more people come to Israel and we made this olive guy. We learnt so much about JNF. Saar was really cool. We played lots of games. Next time he comes, it will be fun.

By Adam (Yr 3)

When Saar came to the school, it was really great. Saar is the Education Officer for the JNF (Jewish National Fund). When Saar was here,

he taught us so much about Israel. He showed us a Powerpoint Presentation about amazing places in Israel. He also showed us how much of the land JNF owns. They own 19% of Israel and the Jewish people of the world own the JNF. We also played lots of fun games and made some big maps and had a mini assembly to say thank you. *By Ben (Yr 5)*

When Saar, (the Education Officer for JNF or KKL) visited, it was so fun and we all learnt a lot. The most fun thing we did was create a sketch (supposed to be funny) to advertise our visit to Israel (kind of a fake visit though). I learnt that JNF (or KKL) owns 19% of Israel and every Jewish person owns JNF (or KKL) which means every Jewish person owns 19% of Israel!. We also played a game called "Yam or Yabashar" where we had to pretend to swim when Saar said "Yam" and stand inside a hoop when Saar said "Yabashar". We have to donate to Tzedakah because otherwise the JNF (or KKL) will not be able to purify water and plant trees etc. etc.

As a conclusion, I think that the visit from Saar was the most fun JNF (or KKL) visit ever and I would love Saar to come back!!!

By Ethan (Yr 5)

Saar from JNF came to our school this week for our Jewish Studies lesson. We had a lot of fun learning about Israel and JNF. We learnt that JNF owns some of Israel but whatever JNF owns, so do all the Jewish people. We learnt that JNF doesn't just plant trees, they also clean rivers and make reservoirs. JNF stands for Jewish National Fund. In Saar's first lesson we had with him, we had to advertise Israel on a big piece of paper. Then you had to make a song or a skit to go with it. It was heaps of fun. Next Saar put 3 hoops on the ground all in a row. Then all of us had to fit inside the hoops. Then Saar made the inside of the hoops the land and the outside of the hoops the sea. When Saar said "Yam" we all had to go in the sea and pretend to be swimming and swim around and when he said "Yabashar", we had to go onto the land. We had to make a map of Israel using textas and pencils. Then we all had to line up in groups and find pictures of Israel. Then we went and made another skit. Then we went outside and played a game where you had to slap people's hands and say "yum", "soo", "nee" and the person with "nee" had to chase another person. After that, we all had to stand in a circle and pass the Tzedaka box. We all had so much fun and I hope Saar comes back soon. *By Joanna (Yr 5)*
